PRODUCT

3500' of 6-6-6-6-6 STR CU THHN in 1" HDPE Conduit

Southwire SIMpull® Cable-in-Conduit

Recently, our Contractor Solutions Professional team introduced Southwire SIMpull® Cable-in-Conduit (CIC) to contractors for a lighting project that consisted of 33 light poles spread out over 3500' of trench. CIC provides a one-step installation which saves time, money, and equipment costs. And Southwire is the only full product supplier that manufactures both the cable and the conduit, providing trusted and tested quality you can depend on.

SAVE TIME AND MONEY WITH SOUTHWIRE'S SIMpull® CABLE-IN-CONDUIT
