Price Increase: Copper MC Products effective Monday, April 12, 2021

Dear Valued Customer:

We continue to see material cost increases in components of CU MC. Due to these increases, we will be implementing a CU MC price increase, effective Monday 4/12. This will reflect a 8½% increase from the previous number, putting price of 12/2 CU MC at \$510. We will not accept orders above typical volume of customers.

Sincerely,

Laura Helms
Product Director, MC Flex and LT
