

October 8, 2020

**Price Increase: Covered Aluminum**

Dear Valued Customer:

Southwire Company, and the wire and cable industry, continue to be impacted by cost pressures and price increases in multiple areas including raw materials, metals, packaging and freight. Southwire makes every effort to control the cost of our products and services, but for these reasons, Southwire will issue a price increase to take effect close of business October 15th, 2020 for our customers.

This price increase will affect 600V Covered Aluminum Products and will be applied to all quotes after October 15th, 2020. The updated CA price sheets represent an increase to our list prices at an average of 5%.

Should you have any questions, please contact your local Southwire Company Sales Representative.

Thank you for your continued support of Southwire.

Respectfully,

Brett Kenerly  
SOUTHWIRE COMPANY  
Director, Utility Product Management
